

1. In the case study, working through the **Data Preparation** stage, it was revealed that the initial definition was not capturing all of the congestive heart failure admissions that were expected, based on clinical experience.

1 / 1 point

☐ True☒ False**Correct**

Correct. It was working through the **Data Understanding** staging that the initial definition was found to be incomplete.

2. Select the correct statement about what data scientists do during the Data Preparation stage.

0 / 1 point

- ☐ During the Data Preparation stage, data scientists define the variables to be used in the model.
- ☐ During the Data Preparation stage, data scientists determine the timing of events.
- ☐ During the Data Preparation stage, data scientists aggregate the data and merge them from different sources.
- ☐ During the Data Preparation stage, data scientists identify missing data.
- ☐ All of the above statements are correct.

3. The Data Preparation stage is a very iterative and complicated stage that cannot be accelerated through automation.

1 / 1 point

☐ True

☒ False

✓ **Correct**  
Correct.
